NUMBER 51.

State Aid For Needy Children Helping Many Families

One of the nicest and most beneficial programs ever put into effect in our state is that of the Child-Aid Program designed to help the needy widows and orphans of Kentucky. Several Letcher County mothers are now receiving the full benefit and it is indeed gratifying to see this program become active. Many poor mothers who have no earthly income and have several little mouths to feed can now feel thankful that this assistance will help them to survive and receive an education which otherwise might not have been possible.

To our way of thinking this program along with that of the Blind and Crippled program should always be kept alive. We should never fail to remember the widows and orphans and especially the needy ones.

Children's Bible Camp Opens

Camp Evangel closed its first week of the season on July 5th with sixty children attending, some twenty adults comprising the staff. This is located on Levisa River between Nigh and Feds Creek, Pike County, Ky., and is operated by the Southern Highland Evangel (Undenominational), this being the second year. Boys and girls who memorized 130 Bible verses during the past year are given this Camp opportunity without cost. Children from the following counties were present: Pike, Floyd, Letcher, also Mingo and Buchanan. There is cause for thanking God that these young people were transported safely and no accident occurred at Camp worthy of mention.

On July 12th another Camp will begin with boys and girls from West Virginia mainly attending. Visitors are welcome any time during a Camp week.

In recent months much work was done to provide recreation equipment as shuffleboard, croquet, golf, badminton, swings, sliding board, sawsaws, etc.

From Letcher came the following: Coralie Collins, Pauline Collins, Heine Collins, Mable and Gay Tolliver and Wanda Wright, all from Democrat.

Accidents Take More Lives Than War
The American Safety Council said today that 40,000 Americans had been killed in traffic accidents since Pearl Harbor, compared with 15,132 killed in the armed forces.

The council predicted that the 1943 toll will approximate 24,000, 40 per cent less than 1941, but only 15 per cent below the 1942 death toll of 28,200.

In addition to war dead, the Government lists 21,560 wounded and 33,697 missing. In addition to traffic dead, the council listed 1,400,000 injured, 100,000 of them permanently disabled. Of the traffic dead, 22,590 were workers.

With traffic fatalities mounting rapidly, the council sounded a warning to motorists regarding the Fourth of July holiday.

"Even with wartime restrictions, heavy holiday traffic is anticipated," the council said. "Thousands of war workers will be driving to and from their jobs, despite the holiday. Any many motorists have nursed their gasoline ration stamps for a holiday trip. If the experience of previous years is repeated, the holiday traffic death toll will run into hundreds."

Figures for the first five months of 1943 revealed that four states—Minnesota, Maine, Nevada and Vermont—had decreases of 50 per cent or better in traffic.

Guest Speaker At Rotary Luncheon

DR. J. C. COLDIRON
Dr. J. C. Coldiron, prominent physician of Hazard was guest speaker at the Whitesburg Rotary Club Luncheon held Friday, July 2, in the basement of the Presbyterian Church.

In addition to medicine, Dr. Coldiron convinced his listeners that he was well versed in historical events of the past and present. Discussing the war and modern day strategy Dr. Coldiron concluded by quoting from Alexander The Great who said to his soldiers, "Let The Strong Rule." There is no question but what we shall win, said Dr. Coldiron, and only the strong can win in the end.

Dr. Coldiron is also a candidate for the office of State Senator on the Democratic Ticket.

The speaker was introduced to the club by Prof. Frank Matur.

Other guests of the Rotary club were Pvs. Paul and Jack Little, sons of D. W. Little, Sgt. Henry Williams, and Rev. J. T. Sudduth.

The ladies of the Presbyterian Church prepared an excellent meal which all thoroughly enjoyed.

Charles Ray Miller Jr.
Charles Ray Miller, Jr., young son of Mr. and Mrs. Robert Lee Miller of Seco, passed away after a few days illness.

Funeral services were conducted Saturday afternoon at Mayking Cemetery with Rev. Ishman Sparks, officiating. Craft Funeral Home was in charge.

Warren S. Johnson
Warren S. Johnson, Col. Haymond, died June 30th of heart failure. He was 62 years old and had been a resident of the county for several years having formerly lived in Alabama. He was a very active member of the Mt. Zion Baptist Church of Haymond.

Bert Routley Is Called By Death

Bert Routley, age 67, passed away at his home below Whitesburg on Wednesday afternoon where he had been in declining health for some time.

Mr. Routley came to Whitesburg many years ago with his family. He began working for the Hot Spot Coal Co., as carpenter which trade he followed throughout his life. He was also a former employee of several other county concerns, among them the South-East Coal Co., Seco, and lately employed by The Elkhorn Coal Co., of Kona. He lived a good life joining the Old Regular Baptist Church of Mayking several years ago and lived a true Christian life until his death.

The deceased leaves besides his widow and three small children a great number of friends throughout the county. His daughters are Mrs. Lester Banks and Miss Helen Routley and one son, Albert, Jr.

Funeral services will be at the First Baptist Church on Friday afternoon at 2:00 P.M. with Rev. G. Bennett Adams, L. O. Griffith and Dewey Scott, conducting the services.

The Craft Funeral Home is in charge and burial will be in the Webb Cemetery at Mayking.

Japanese Evactees Work On Farms

The ten relocation centers, temporary homes of the people of Japanese ancestry who were evacuated from the Pacific Coast area, are moving a source of labor for the farms. Officials of the War Relocation Authority estimate that more than 8,000 workers have been supplied from the centers, either for year-around or seasonal farm employment.

Under the program of the War Relocation Authority qualified evacuees are being permitted to leave the centers for private employment and normal living on the outside. Since many of these people were farm operators or farm workers on the coast prior to the evacuation, they have naturally returned to farm work.

At the relocation centers farm operations are carried on and the evacuees produce approximately 90 per cent of the vegetables required for the mess halls.

Germany Launch 3rd Offensive Against Russia

Adolph Hitler's long expected summer offensive appeared to have run into a buzzsaw of Soviet defenses as the Red Armies blocked every major thrust along the 165 mile front, killed more than 6,000 Germans and destroyed 738 tanks in the first 24 hours of battle. The German drive, launched just after dawn yesterday struck on the so-called "hinge sector," 200 miles south of Moscow in the region between Orel and Belgorod.

Battle dispatches by press and radio said a series of violent assaults by German armored divisions and infantry had been flung back at all key points with Nazi losses running as high as 50 per cent of the total attacking strength. Russian planes struck heavily at German communications in the rear, attacking the railroad junctions of Gomel, Uncha and Roslav and starting fires and explosions among trains, a special Russian air communiqué said.

A Patriotic Call To All Construction Men

America's fighting men are proving their courage on battlefronts across the world. They're waging a hero's fight. But this war calls for more than courage, more than heroism. To win, our soldiers, sailors and marines need bases. Drydocks and repair facilities for our warships. Airfields for our fighters and our bombers. American built. American operated. From which to launch their attack. That is why your Army and Navy are calling for experienced construction men.

That is why the procedure has been changed to enable you to volunteer for the Navy Seabees or the Army Engineers.

HOW YOU CAN VOLUNTEER FOR THE SEABEES
If you are between the ages of 18 to 35, you can enlist in the Seabees at any Navy Recruiting Station.

THE NEW PLAN OF VOLUNTARY INDUCTION
If you are between 18 and 35 and have not been called for induction, you may volunteer for induction in the SEABEES as follows: First, go to the nearest Navy Recruiting Station. You will be interviewed as to your experience in your trade and you will be assigned a rating and given a letter to your draft board stating that you have qualified for the Seabees.

Take the letter to your draft board and volunteer for induction. When the board gives you your clearance papers take them to the Armed Forces Induction Center, where you will be sworn in the Navy. Following this you will be granted a 7-day leave, then assigned to a training center.

Remember that applying at the Navy Recruiting Station does not affect your present draft status. You are not obligated in any way until you have been cleared for Voluntary Induction by your draft board.

GUFFEY COAL ACT IS DISCONTINUED
Washington, July 7.—The one big desire shared alike by oil warping coal miners and operators—extension of the Guffey Coal act to stabilize the bituminous coal industry—ran today into a 13-1 House committee rejection.

Enacted in 1937 to put a floor under prices at the mine and thereby to prevent unregulated competition in an industry which had long been on the sick list, the act now will expire Aug. 23 barring an overthrow of the action, taken by the Ways and Means Committee in executive session.

Mr. Roosevelt's written recommendation for continuance failed to win the committee over. He said:

"The whole coal situation is so unsettled that it would be helpful if any phase of it could be definitely concluded. . . I am again concerned about the failure to extend the Guffey Coal act and I hope the Ways and Means Committee will find it possible to conclude its hearings and report the bill favorably."

Argued Representative Cooper (D-Ten.) on the purpose of the act:

"I ask you if the coal industry has been stabilized. There has been more trouble in this industry than in any other in the country."

Opponents of the extension contended that since the government is now operating the coal mines following the series of United Mine Workers strikes, the act no longer is necessary. They also said it caused higher prices for consumers.

After the War—WHAT?

"The state's greatest obligation is to prepare for the readjustment and certain return to civilian life of those who have contributed in full measure in defense of freedom."—From J. Lynd Donaldson's opening campaign speech.

J. LYND DONALDSON

WHITESBURG ROTARY CLUB

July 2, 1943.

"America" Invocation Luncheon Introduction of Visiting Rotarians and Guests. Announcements by Secretary. Committee Reports and Discussions. Address: Speaker to be furnished by Frank Maturo. LAST MEETING: The Ladies of the Presbyterian Church prepared the meal for us. Fried Chicken and all the trimmings. It really was a good meal, and we appreciate the women taking care of us. So far as we know now, we will meet again at the Presbyterian Church this week. Let's all be there. The meeting was called to order by President George who proceeded to declare all officers vacant. He then called on Past President Stephen Combs, Jr. to resign and install the newly elected officers. Officers installed: Oscar Lewis, President; Dewey Polly, Vice-President; Ben P. Sergeant, Secretary; Herman Hale, Treasurer; R. Dow Collins, Sergeant-at-Arms; Coy Holstein and Sam Winfrey, Directors. After the Officers were installed, Past President Steve called on each one for a short speech. Retiring President George gave his farewell as president. A good job of it too.

We are enclosing enclosing a Rotary Calendar with the hope that it will be a continuous reminder during the Rotary year, of the dates of the different meetings. We know that with the War on, rationing, dining rooms closing and

numerous other things to interfere, any service club is going to have a hard time making a go of it. We sincerely hope each of us will be prepared to make some sacrifices in order that we will be able to continue to meet and keep our club a going organization. At this time we are faced with the problem of a place to meet. Think it over. Are we prepared to make some sacrifices if necessary? The committee on Food will probably have some suggestions this week. Let's try to make a decision agreeable to the entire membership.

Also find enclosed a list of the officers and Committees. Keep this list for future reference. As soon as possible, after Dewey reports on the Winchester trip, we will have a meeting of the Aims and Objects Committee and try to start the wheels rolling. No Dow, we did not pull a fast one on you about the Sergeant-at-Arms job. There was a special meeting of the Directors and all felt like you was the man to do the job up to now, we know you will do it too.

Remember that \$7.50 dues for six months are due now.

Whitesburg, Ky.,
To The Mountain Eagle.
Dear Editor:

I will answer Mr. Denver Craft's letter. I saw in The Eagle that he wrote from San Diego, Calif.

Hello, Mr. Craft, how are you? Well it didn't surprise me a little bit when I saw your letter in The Eagle. I this year, or other farmers

Local Union at Millstone, Ky. and just as full of unionism and patriotism as any patriotic man in the U. S. A. and I don't think it sounds a bit good when you expressed your position, president of Local No. 5775, Kona, Ky., and then putting a letter in The Mountain against the Union. You said we ought to work on and let the Board settle the price. Brother: Did you not hear that the Board ruled against us? Well it did. And again, you said what if you boys were to strike. What would the people say? They would say the same thing about you boys that they would say about us if we were to stop buying War Bonds and gathering up our scrap iron, sending it in to our government. Brother listen: the coal miner has got more boys in the service and are buying more Bonds and have helped more in this war than any other concern.

We realize we have a war to win. But the operator must come along with us and help.

We need more pay to come up with other prices and especially to come up with the food prices.

So this is all. Good bye. Hoping the war will soon be over, I am,

ALEX. R. TYREE.

No fruits and vegetables raised in Letcher County this year should be allowed to go to waste while there is need for them locally or in other parts of the country, says William H. May, Commissioner of Agriculture. With these surplus in mind, a statewide clearing committee has been organized under the leadership of J. Dan Baldwin, Director of the Division of Markets, Kentucky Department of Agriculture.

Any considerable surplus should be reported ten days to two weeks in advance of harvest to the Division of Markets, which will notify buyers from the large food distribution companies. This will not apply to small victory garden surpluses which can best be disposed of to neighbors or local retailers. Outside sales can be arranged for good quality tomatoes, carrots, cabbage, Irish potatoes, sweet potatoes and other vegetables that may be grown in considerable quantity.

Surplus products may come from market gardeners who have expanded their acreage. This year, or other farmers

raising for the first time. The Division of Markets should be advised well in advance, because it will be necessary to arrange for central assembly points for the produce, as well as arrange among growers for proper packing and grading.

Camp Branch News

Parnell Sergeant, youngest son of Mr. and Mrs. Enoch Sergeant, Pendleton's Branch, was taken to Hazard Hospital last week for a mastoid operation. He is reported to be making a very good recovery. Among those returning last week from Detroit, Mich., were Mr. and Mrs. Coy Taylor, W. H. Polly, Vernon Niece and Bill Broughton. Vernon Niece expects to return to his job this week end.

Mr. and Mrs. Russell Diamond and child have moved into the house formerly occupied by Mr. and Mrs. Bill Profit and family. Mr. Diamond is employed in the Caudill mine.

Pvt. Lloyd Gibson, son of Willard Gibson, Trace Fork, returned to camp in Colorado last week, after spending a brief furlough with his home folks.

Mr. and Mrs. Dale Caudill have gone to Detroit, Mich., and are employed there, as are also Norma Lee Thomas, Edna Richardson, and Bertha Vance.

Small prizes were awarded last Sunday at Bowens S. S. to the boys and girls who had had perfect attendance for three months. The recipients of the prizes were as follows: Ralph Vermillion, Denver Profit, Darrell Dean Profit, Alfred Boatright, and Wanda Spangler.

Mr. and Mrs. Enoch Sergeant have received word that their son, Pfc. Enoch Sergeant, Jr., has arrived safely in North Africa. Their older son, Captain Sergeant, is also in North Africa, enjoying a well-deserved rest period, after months of action.

Mrs. Jim Profit, Thornton Gap, has been very ill for some little time at her home. Friends and neighbors of Matthew Lucas, son of Polly Lucas, have made him a present of a new mattress. He has been confined to his bed for many months.

Word has been received that Pvt. Donald Profit, son of Mr. and Mrs. Harrison Profit, and Pvt. Elmer Sergeant, son of Mr. and Mrs. Enoch Sergeant, are both in California on desert maneuvers.

Mr. and Mrs. Joseph Profit held a bean-budding at their home last Monday night. About ten neighbors came to help them.

Services at the Sexton graveyard were held last week end by the Regular Baptists. The marriage of Miss Vesta Profit, daughter of Mr. and Mrs. Harrison Profit, took place last Monday to Pfc. John Mark Sergeant of Fort Bragg, N. C., son of Mr. and Mrs. Henry Sergeant of Whitesburg. Pvt. Sergeant has a fifteen-day furlough from duty.

Columbus, Ohio, July 3, 1943. With the President's signing of the bill changing the Women's Army Auxiliary Corps to the Women's Army Corps and making it an integral part of the Army of the United States, its members serving within the Fifth Service Command became full-fledged soldiers. Headquarters of the Fifth Service Command, Fort Hayes, announced today.

Captain Helen Y. Hedekin, WAAC Staff Director and top-ranking WAAC officer on duty with the Service Command Headquarters, said, "Members of the Corps have been on duty in the Service Command for several months now and have replaced many soldiers for combat duty. They have taken the places of able-bodied men at countless non-combatant jobs which women can do as well as men. Everywhere army commanders have been high in their praise of them."

"The jobs WAACs do are important and necessary," she added, "and the more WAACs we have, the fewer men needed, as WAACs per-

form duties which would otherwise have to be done by men soldiers."

Important changes in the bill, in addition to the change in the title of the Corps, are: 1. Women will have equal rights and benefits with army personnel including the same nomenclature of rank, franking privileges, government in-

surance and allotments. 2. The age limit for enlistment is lowered to the age of 20 years and raised to the age of 30. The WAAC, the first of the Women's services, was organized in May, 1942, and the first WAACs reported for duty in the Fifth Service Command last September.

Please RETURN OUR SOFT DRINK BOTTLES Promptly WE'LL APPRECIATE IT!

In life, it is often the little favor that is the most appreciated.

And in total war, it is often the little thing that really counts. Like, for instance: saving fat to be converted into bullets, saving cans for the vital tin they contain, conserving gasoline. . .

Yes, and even remembering to return empty soft drink bottles to your retailer as soon as possible.

Soft drink bottles standing empty and idle spell waste.

Put back into active use, those bottles save transportation, power and materials—play an important part in making available to the public pure and wholesome refreshment—and thus help relieve wartime tension.

LOCAL AMERICAN LEGION POST TO ASSIST IN DRIVE FOR AVIATION CADET APPLICANTS

"Bombs over Tokio" and "Bombs over Berlin" may be more than mere slogans to the local American Legion Post during the coming weeks. A direct part in raising destruction from the sky on Axis strongholds in Europe and Asia may be taken by members of the Post when they participate in a recruiting drive being carried on by the State Legion to secure seventeen-year-old Kentucky men for the Army Air Forces.

The plans for the drive, according to Mr. J. B. McAuley, Adjutant of the local Post, are as follows:

The Legion state convention will be held at Louisville on July 21. At that time, a special ceremony will be held for swearing into the Air Force Reserve all seventeen-year-old men recently qualified for aviation cadet training; and every post in the state is being requested to qualify as many applicants as possible to take part in the ceremony.

The possibilities for a colorful and impressive ceremony appear to be excellent, said Mr. McAuley. An effort will be made to have a high Army official present to swear the applicants in, and an important public official will present to them the Army Air Force lapel buttons which a man qualified for aviation cadet training is entitled to wear. During the ceremony, the various applicants will be introduced as representatives of the posts which were instrumental in having them become candidates for air corps training.

In discussing the recruiting campaign and the enlistment ceremony to be held at the state convention, Mr. McAuley said that the local Post, as well as securing candidates for the event from among the seventeen-year-olds of the community, is also desirous of bringing to the attention of older men the information that men between the ages of eighteen and twenty-seven may also apply for assignment to the air forces. Men in this age group, however, if they qualify, must volunteer for induction through their local draft boards in order to be assigned to the Air Forces after entering the Army.

Mr. McAuley said that any young man who wishes information about Army Air Force air-crew training may receive full details by writing to the Aviation Cadet Examining Board, W. A. V. Building, Preston and Broadway, Louisville, Ky.

Mr. McAuley also added that the local Post will do everything in its power to qualify seventeen-year-old men for cadet training in the immediate future, so that the Post may be represented at the enlistment ceremony at the state convention.

The Fleming Homemakers' Club

The Fleming Homemakers' Club held their regular meeting June 28th at the Fleming Club House.

The following members were present: Mrs. Edna McCowan, Mrs. Ora Lewis, Mrs. Elmer Quinlan, Mrs. S. H. Tucker, Mrs. Harlan Wormsley, Mrs. I. S. Ramsey, and Mrs. Marybelle Rogers. We were pleased to have Mrs. Mossie Catron and Mrs. Pauline Jones as visitors.

Beautiful and useful hearth brooms were made from colored broom corn that was purchased from Berea College.

It was decided that we would skip our meeting in August.

Delicious cookies and punch were served by the hostess, Mrs. Ramsey.

We members of the Fleming Club certainly appreciate the work Mrs. Rogers is doing. She never seems to become tired or worried with our many questions and failings.

Everyone should take advantage of this opportunity to learn so many useful things.

Come On,
America—
GIVE HIM
A HAND!

HE'S out there fighting with all his might to win the war. Sure, he can lick the Japs; but he's counting on you to help . . . to give everything you've got . . . to as many Bonds as you can! Come on America—show the man behind the gun that you're with him every inch of the way. Buy War Stamps and Bonds every pay day until the war is won!

Special to The Eagle:

Being a veteran of World War No. 1 and a father of two sons who are in the armed forces I would like to say a few words about strikes and what we call slackers and what it means to do one thing that would be of interest to those precious boys on land and sea and in bloody battle fronts of Germany and those foreign countries where I waded through mud and water and hid in shell holes and stayed days, nights and weeks in 1917-18, and the heart-aches and pain that every other poor mother's son that was there with me, not knowing whether we would ever see this beautiful American soil of ours again or not and how much harder it was then and now. We were fighting for the same thing our precious sons are shedding their blood and giving their young bright lives for daily: Freedom, freedom and oh how glad we were when we could hear of one thing our fathers and friends were doing back home to help us and to keep us on the front lines so we could get the job over quicker and return home to our loved ones and heart-broken mothers, old and gray. When I lay down at night I can see what those loved American boys are going through, it makes my blood boil to hear a man say we won't work 8 hours for 8 dollars or 12 dollars. Our boys are on the front doing a job for 50 cents per day almost and saying come on boys and let's finish them up. I have 2 precious sons in the Army and one some place unknown and the other in the States. I know that they will never let me down and with the little mite they are getting we are receiving a Bond each

from them every two months. I ain doing my bit in Defense work. I have two daughters and a son-in-law also and we are all going our limit in purchasing Bonds and if it was necessary I would go two meals per day for the help of those boys. My son-in-law, James Lemaster is also giving all the blood the Red Cross would take the past year for the sick and wounded over there. So fathers of our country, please quit thinking of those big pay slips and high wages and put your shoulders to the wheel and do everything in your power to win this war. And pray day and night that we may have peace soon and then most of all have our boys return home to their loved ones who are waiting in patience for them. Since we all have brothers, sons, sweet-hearts or husbands, let's go the limit buying War Bonds and more War Bonds and try to gain the Victory.

Letters From Our Boys In The Army

The Mountain Eagle,
Dear Friends:
Please change the address
of my paper to Colorado
Springs.

My opinion of The Eagle is
the same as all the other fel-
lows who are in the service.
It is the best paper in the
world.

I hope that you continue to
print the letters from the
boys.

In the last edition I saw a
letter from my very good
friend, Elmer Stanley. I also
see occasionally where a
friend has been sent over, or
at least, where he is station-
ed.

I extend to The Eagle and
its staff and all of those who
read it my very best wishes.

Sgt. W. A. Hibbits,

June 18, 1943.

Dear Family:
I received your letter and
also Clyde's in the last couple
of days. Clyde said he had
a grand time while he was
home on furlough, which I
know he did. Well I am glad
one of the Hall boys gets a
furlough. I notice in 'The
Mountain Eagle' which I've
been receiving quite regularly
now that lots of the boys
are getting furloughs. I don't
blame them. I too would if I
could. Where I am it's al-
most impossible.

Have you heard from Sgt.
Lloyd Gibson who is in New
Guinea. If you can I wish
you would send me his ad-
dress. Some of my boy
friends I notice are in North
Africa. I know they have had
a tough time but they have
done a swell job.

Everything here is same as
usual. I am getting along just
fine. Seems to me I am in
good health so far, so there
isn't any use of worrying. Ev-
erything is honky dorey. There

isn't anything I can say about
this place.

I received a letter from
Martha, she was about to
bawl me out for not writing
any more often than I was. I
know I wasn't, but she don't
know how hard it is to write
a little. She will get over it.

Well mom and dad I am
glad you are in good health,
that's the most important
thing to me. Dad I hope you
are getting along just fine
with your Police work. Drop
me a few lines about the boys
and old times. Do you get
enough gasoline? Boy it
would feel good if I could get
my hand on the wheel of a
Buick now. I've rode many
a car but you can't compare
other cars with that Buick.
You still have my Internation-
al?

Well I am glad that Claude
is working at the store. If
Elmer Anderson is still on his
thirty-day furlough, tell him
I said Hello and write. He sure
was lucky getting thirty days.
I wish I was that lucky. But
I don't let that worry me I am
used to it.

Well, if you see any of my
friends tell them I said hello.
Is Winfred Weeks still at the
fountain? Tell her I miss her
hamburgers. By the way,
how is America? Well this is
about all I have to say so have
a good time.

The Mountain Eagle
Whiteburg, Ky.

Dear Editor:
For the past two weeks I
have received The Mountain
Eagle—it was very much ap-
preciated. The saying, "You
live in what you read," so
goes it with the Eagle. You
travel back home while you
read. When the last line and
word has been covered, you
then realize you are not at

home, but on some Army
Bunk, a long ways from there.
But we have a job to do and
we won't be coming home un-
til it has been finished. So
the news from home lets us
know the process of things
back there. One part of one
paper stood out more than the
rest, the part where the re-
port of the bonds bought, was
listed. I'm proud! Because
that gives us equipment, and
of the people. If only more
of the people would buy more.

To this I'm attaching a
poem, probably some one will
be interested in reading it.
Especially the ones who have
loved ones in service. If they
don't hear from us often, it's
because we are busy, but this
poem carries a message. Tell-
ing you that we think of you
even if we don't write so of-
ten.

A PHOTOGRAPH
OF YOU

When the evening shadows
gather,
After all my work is through,
I can't keep my eyes from
staring
To a Photograph of you.

There it rests upon my locker,
Just the way you looked that
day.
Ah! It seems it was but yes-
terday
When first I heard you say,
Words of love that made me
happy.

And made all my dreams
come true;
But—tonight I'm all alone with
Just a Photograph of you.

For one day my country called
me,
And I bravely answered
HERE.

Oh, I'm proud to be a Soldier!
Yet I brush away a tear.

Then I wonder if you're lone-
ly—
Yes—I know you miss me,
too;
While I sit here dream-
ing—
gazing
At that Photograph of you.

So I tip toe to my window,
Kneel and wish upon a star,
Praying GOD to keep you
safe,
Safe no matter where you
are.

Thus my heart is ever with
you
While I toil the long days
through;
And the dearest of my treas-
ures
Is that Photograph of you.

When the years have told
their story,

And the world once more is
free,
I'll be coming for you Dar-
ling—
There will still be you and
me.

Then we'll build our dreams
together,
Hard in hand the long years
through;
But forever in my heart I'll
hold
That Photograph of you.

Dear Editor:
Have been reading The
Eagle, and found some inter-
esting news, it from some
of my old pals who are serv-
ing with the armed forces and
we co like to hear from them.

I think The Mountain Eagle
is a mighty interesting paper
for it gives us many of our
friends addresses when they
write in it. I would appre-
ciate it very much if you
would print this in your pa-
per. Here is a song for the
younger folks at home to sing
for all the boys who are serv-
ing with the U. S. forces. The
title of this song is:

REMEMBER THE DAY

Remember the day they closed
in near,
They gave no sound, no warn-
ing nor fear
They sailed upon an Island
so bright
They dropped their bombs at
break of day light.

Our men lay sleeping as they
closed in near,
They gave no sound, no warn-
ing nor fear,
They destroyed our fields, our
planes and our plants,
But we'll get even with the
Japs for that

We know dear mothers it's
breaking your hearts,
But we still stand brave in
the Islands afar,
We'll do our parts over here
you know,
By fighting hard for where
we go.

They talk of us in the U. S. A.
They say that America will
soon decay,
But remember the day and
don't forget
We'll get salvation and Victory
yet.

Announcements
We are authorized to announce
that JOHN S. WEBB, Whites-
burg, Ky. is a candidate for
Representative, Letcher District.
Subject to the Democratic pri-
mary to be held Aug. 7, 1943.

She's 5 feet 1 from her 4A slip-
pers to her span-gold hair. But
you, oh man, how she can handle
her big power!

Wait a minute! How can 110
pounds of beauty boss so many
tons of steel? ... Is this magic?
Yes, in a way. The modern
magic of electric power. The
magic that makes it possible for
a girl's slim fingers to lift ac-
tains of metal, or set great wheels
in motion—just by pressing a
button or pulling a lever.

Women are able to work be-
side men on America's war-
production lines because elec-

tricity does the heavy labor.
America's war production is the
greatest in the world largely be-
cause America has the world's
greatest supply of electric power.

And America's electric com-
panies make business and in-
dust provide over 10 per cent
of all that power at low prices.
Call that magic, too! But to

the experienced men and women
of the electric companies it's all
in the day's work! All part of
knowing the job.

They were ready when war
came, and now they're produc-
ing far more power than all
the Axis countries combined!
They're stepping up America's
war-power—and woman-power
—tremendously!

TO KNOW the highways of the nation has long been the
business of our Travel Bureau. To chart the roads on legible
maps, to classify them as to surface and character, to spot the
sections where construction or other obstacles block traffic—
and to tell all who may inquire—these are the full-time
specialty of Kyvo Motor Travel Bureau.

Designed to function in peace time, it has been wholly
converted to a war time basis. Pleasure trips are "out" for
the duration, but many highways are very busy, nevertheless.
Officers and men are hastening to camps, or moving from
camp to camp, or "heading for home" on leaves and furloughs.

It is important for them to save time—miles—gasoline—
rubber. They ask our Travel Bureau to help them to conserve
—cut corners—avoid costly detours. The same consideration
applies to commercial vehicles, bound on missions of war
necessity.... This service is free.

Information On How To Use Glass Top Jars

We have had reports of accidents occurring in several homes when the new type glass top jars were used. These jars seal with a band and the rubber ring which fits between the band and the glass top.

The Extension Department has provided, free of charge, such unusual facilities as a fully equipped beauty parlor with dressers; showers; a 48-foot powder table with cosmetics; ironing boards; a game room with ping pong tables, car tables, etc.; the Mrs. Chang

DO NOT USE IN Oven Canning.

2. Examine top edge of jar. This must be smooth, even, and clean to assure perfect seal.

3. Wash jars, lids, and rubbers in warm soapy water. Rinse. Cover with warm water. Boil to sterilize. Keep hot until needed.

4. If processing (cooking in jar). LEAVE 1 INCH OF SPACE IN THE TOP OF JAR. If using Open Kettle, leave 1-2 inch space in top of jar.

5. Fit wet rubber around projections on under side of lid.

6. Place lid so rubber lies between lid and top edge of jar.

7. Turn bands tight, then loosen slightly about 1/4 turn) bands must fit loosely during processing (cooking). This is IMPORTANT and must be done to insure best results. If using Open Kettle, screw bands tight as soon as jar is filled.

8. After processing, screw bands tight to complete seal. Remove bands 12 hours after canning open-run point of knife under rubber to admit air and break seal.

DO NOT TURN FILLED JARS UPSIDE DOWN.

IMPORTANT CHANGES DURING WARTIME

Wartime measures have brought about important changes in our pattern of living. Particularly with reference to shopping and eating habits. Less frequent deliveries, fewer trips to market mean storing more foods and keeping them longer. And, since most refrigerators are too small even in normal times, the problem of limited storage space is more acute than ever, especially during hot weather when more fresh vegetables are used.

According to Mr. Jackson of the Jackson House Furnishing Company, local appliance dealer, "Knowing what to leave OUT of your refrigerator today may be almost as important as knowing what to PUT IN." Here's a list of what CAN go in and also what CAN go in if space is available.

Foods that MUST be Refrigerated
ALL DAIRY PRODUCTS.

Gift to United Nations Service Men and Women

This eight-story Peppel-Cole Center for Service Men and Women in San Francisco at Mason and Market Streets, donated by Peppel-Cole Company to enlisted members of the United Nations Armed Forces. The Center which is equipped to provide free facilities and conveniences to 25,000 Service Men and Women a year, features an entire floor devoted to the comfort of WAACs, WAVES, SPARS, Marine Women's Reserve, Army and Navy Nurses Corps, and similar auxiliaries of the United Nations.

The women's portion of the Center provides, free of charge, such unusual facilities as a fully equipped beauty parlor with dressers; showers; a 48-foot powder table with cosmetics; ironing boards; a game room with ping pong tables, car tables, etc.; the Mrs. Chang

Store all except ice cream on open shelves. Store ice cream in freezer. Store butter and "soft" cheese in covered containers; wrap hard cheese in waxed paper or clean cloth wrung out of vinegar.

MILK, FOWL, FISH. Keep in meat tray or loosely wrapped in waxed paper below freezer. Exceptions: Always wrap fish to prevent odor transfer. Wrap mildly cured meats like bacon in cloth wrung out of vinegar to prevent mold. Wrap and freeze ground meats, variety meats, and fish if not to be used at once; poultry and other meats if to be kept several days.

FROZEN FOODS OF ALL KINDS. Wrap and keep in freezer.

FRESH GREEN AND SALAD VEGETABLES. Keep in vegetable compartment or other covered container.

FRESH "RIPE" FRUITS. Store in covered container. Berries keep best in shallow pan, covered loosely with waxed paper.

CANNED. In general, cover and store canned and bottled goods that have been opened (soups, sandwich spreads, tomatoes, etc.).

"Some refrigerators are designed to provide temperature and humidity conditions that make it unnecessary to cover foods."

Foods that CAN be refrigerated. (If space is available).

Some foods do not require refrigeration for safe-keeping, but are improved in taste when thoroughly chilled. Others keep better in the refrigerator but can be left out. Among these are:

Carbonated beverages*
Pickles and olives*
Fresh oranges, grapefruits, limes and lemons*
Fresh peaches and pears, not fully ripe*
Pineapples, melons* cabbage, cucumbers, watermelon*
Bread, cake, pies and other pastries.
Peanut butter and salad dressing.
*If space is limited, chill only enough of these foods and beverages for immediate need. Store the remainder outside of the refrigerator.
